Young Drivers
Improve your Driving Skills!

Advanced driving improves knowledge, awareness, concentration and car handling skills, developing the driver into one who is more confident, efficient and **70%** less likely to be involved in an accident than an ordinary driver.

Chester and District IAM Roadsmart Group is offering Advanced Driving Courses to drivers under the age of 25, living in West Cheshire and Chester area. Courses are tailored to suit the needs of the individual.

The Group offers coaching recognised by the Road Safety Team of Cheshire West and Chester Council and Cheshire Constabulary. These organisations believe that Advanced Driving is a great opportunity for car drivers to improve their driving skills and save lives. It has many benefits including a greater sense of confidence and driving enjoyment, improving your technique, increasing ability and ultimately lets you get the most of your driving experience.

The skills taught include total control of your car...all the time, brilliant observation, better awareness of other road users' behaviour and effective overtaking.

Cheshire West and Chester Council's Road Safety Team working in partnership with the Group are offering a limited number of places for drivers under 25 years of age, who reside in the Cheshire West and Chester area, the opportunity to have the course fee (administered by IAM RoadSmart) refunded upon completion of the Course and on passing the Advanced Test.
